Thank you from the ICMI 2011 Organizers

Dear all,

We wish to express our sincere thanks and gratitude to all those who contributed to ICMI 2011, including invited speakers, chairs, abstract presenters, members of the International Scientific Advisory Committee, International Organizing Committee, sponsors, staff, and of course to the attendees who traveled from all over the world to attend the congress.

Unprecedented statistics speak to the success of the meeting:
- 963 attendees
- 144 oral abstract presentations
- 489 poster presentations
- 36 invited speakers

Please click here to view a photo gallery of ICMI 2011. Feel free to submit any congress photos you may have for inclusion in the gallery.

We look forward to seeing you in Vancouver in July 2013 to continue the ICMI tradition!

Best regards,

Nadine Cerf-Bensussan, MD, PhD
Matthieu Allez, MD, PhD

SMI Thanks ICMI 2011 Supporters:

The official journal of the Society for Mucosal Immunology

The latest issue of MI features these articles:

Homeostatic control of conjunctival mucosal goblet cells by NKT-derived IL-13
C S De Paiva, J K Raince, A J McClellan, K P Shanmugam, S B Pangelinan, E A Volpe, R M Corrales, W J Farley, D B Corry, D-Q Li and S C Pflugfelder

Epigenetic regulation of human β-defensin 2 and CC chemokine ligand 20 expression in gingival epithelial cells in response to oral bacteria (Open)
L Yin and W O Chung

Extracellular matrix-associated cytokines regulate CD4+ effector T-cell responses in the human intestinal mucosa
K R Huff, L N Akhtar, A L Fox, J A Cannon, P D Smith and L E Smythies

Urothelial antigen-specific CD4+ T cells function as direct effector cells and induce bladder autoimmune inflammation independent of CD8+ T cells
W Liu, X Chen, D P Evanoff and Y Luo

Bile retinoids imprint intestinal CD103+ dendritic cells with the ability to generate gut-tropic T cells (Open)
E Jaensson-Gyllenbäck, K Kotarsky, F Zapata, E K Persson, T E Gundersen, R Blomhoff and W W Agace

New mechanism of oral immunity to mucosal candidiasis in hyper-IgE syndrome (Free)
H R Conti, O Baker, A F Freeman, W S Jang, S M Holland, R A Li, M Edgerton and S L Gaffen

Transcutaneous immunization as preventative and therapeutic regimens to protect against experimental otitis media due to nontypeable Haemophilus influenzae (Open)
L A Novotry, J D Clements and L O Bakaletz

Regulation of the polymeric immunoglobulin receptor by the classical and alternative NF-κB pathways in intestinal epithelial cells (Open)
M E C Bruno, A L Frantz, E W Rogier, F-E Johansen and C S Kaetzel
Please click here to access these articles.

Thank you to all our authors and readers for their contributions and support. We are pleased to announce our new Impact Factor of 6.817*.
