YOU are SMI.

Build the community of mucosal immunologists from around the world. Join today!

www.socmucimm.org • info@socmucimm.org • 414.359.1650
Membership Includes:

**Publications:**
- Subscription to *Mucosal Immunology Journal*
- 20% off *Principles of Mucosal Immunology* textbook
- Quarterly Newsletter

**Access to:**
- Reduced registration to the International Congress of Mucosal Immunology (ICMI) and the new Mucosal Immunology Course and Symposium (MICS)
- Eligibility for meeting travel awards
- Access to websites of related societies and journals
- Free job postings on the SMI website
- Online membership directory, featured papers and protocols

We encourage members to take full advantage of these resources and all opportunities ranging from leadership positions to research collaborations with other SMI members. SMI is continuously looking for new volunteers to participate in activities within the society that will help further research and development within the mucosal immunology field.

If you have any questions regarding membership, please contact Amanda Mohr the SMI Membership and Marketing Coordinator. You can reach out via email at amohr@socmucimm.org or over the phone (414) 359-1650 ext.1123.

Qualifications:
- New applicants must indicate a reference who is an SMI member at the time of application. If the potential member is unable to provide a reference, his or her application will be discussed by the Board of Councilors, who will decide whether to approve the membership.
- Anyone who is in training is eligible for student membership.
- Those who are retired from full-time employment and who have been members of SMI for at least 5 years are eligible for Emeritus membership.
- Those who are residing in under-represented countries are eligible for a reduced membership rate. Please go to the SMI website to view a list of eligible countries.

PUBLICATIONS and RESOURCES

**Mucosal Immunology Journal**

The journal reflects the interests of scientists studying gastrointestinal, pulmonary, nasopharyngeal, oral, ocular, and genitourinary immunology through the publication of original research articles, scholarly reviews, and timely commentaries, editorials and letters. The journal is ranked 14th out of 144 in immunology journals and has an impact factor of 7.374.

**Quarterly Newsletter**

The SMI newsletter is a quarterly publication that keeps you informed about the society's latest news, event updates and upcoming related events.

**Featured Papers**

Each month the Society for Mucosal Immunology Board of Councilors selects innovative and scientifically rigorous papers to feature on its website.

**Protocols**

Browse the SMI website to review posted protocols, post comments and build new protocols in a global, interactive community of colleagues.

**Principles of Mucosal Immunology Textbook**

*Principles of Mucosal Immunology* is designed for graduate students and postdoctoral fellows, researchers in immunology, microbiology, and medical and dental students. A second edition is in the works and will be published in 2017.
Young Investigator Travel Awards
SMI is proud to support young scientists in the field of mucosal immunology and grants 40 travel awards for the ICMI and MICS. Travel awards range from $500 - $1,000 and are given to young investigators who submit the highest scoring abstracts. Eligible travel award participants must be under the age of 40 and be SMI members.

Distinguished Scientific Achievement Awards
This award honors outstanding members of the community of scientists in mucosal immunology who have made scientific achievements and contributed to the field of mucosal immunology in a significant and important way over a period of time.

Distinguished Service Award
The Distinguished Service award recognizes SMI members who have exhibited great citizenship through service to the society in a volunteer capacity over an extended period of time.

Mucosal Immunology Course & Symposium
The MICS meeting will be held July 27-30, 2016 at the Westin Harbour Castle in Toronto, Canada. This meeting is the first of its kind, focusing on Microbiota and Mucosal Immunity: Rules of Engagement in Health and Disease which is the critical interface between the field of mucosal immunology and the microbiota.

Mission and Vision

Mission: The Society for Mucosal Immunology promotes excellence in research and education in the field of mucosal immunology and fosters communication among immunologists studying both human and animal tissues.

Vision: SMI is the preeminent, international community of physicians, scientists and investigators working together to advance the field of mucosal immunology and improve health worldwide.

SMI’s International Presence

SMI takes great pride in its involvement at other worldwide immunology meetings.
